

SpecFlow Brand Guidelines

SpecFlow is an AI-native execution engine for product teams.

SpecFlow Brand Guidelines

AI Infrastructure for Structured Execution

An **AI-native execution engine** that transforms raw product signals into structured decisions and deployable engineering tasks.

1

Signal

Raw inputs and product data captured from users, markets, and systems — the unfiltered source of truth.

2

Structure

Organized into clear decisions and priorities — turning noise into a roadmap with defined intent.

3

Execution

Deployed as engineering tasks and deliverables — structured output that ships with precision.

About the logo

The primary SpecFlow logo uses a horizontal lockup combining the logomark and wordmark. The symbol represents **structured data pipelines converging into execution**. Diagonal lines in orange and white form the logomark, expressing precision and flow. The wordmark is set in a clean sans-serif typeface, reinforcing clarity and technical confidence.

Elements

- Logomark
- Wordmark
- Horizontal lockup
- Grid-aligned spacing

The SpecFlow mark is built on a **precise geometric grid** ensuring consistency at every scale. Every angle, spacing ratio, and proportion is deliberate — not decorative.

- 01 Grid system — Modular 8×8 unit grid defines the underlying structure
- 02 Clear spacing — 1x unit minimum between icon and wordmark
- 03 Diagonal angles — All angled elements locked to 45°
- 04 Proportions — Icon-to-wordmark ratio fixed at 1:3.5

Logo variations.

Approved formats for every context.

Primary lockup

Icon + wordmark combination. Default format for most applications and collateral.

Icon only

Standalone mark for app icons, social avatars, and compact brand placements.

Monochrome white

Single-color white version for dark backgrounds, overlays, and photography.

Monochrome black

Single-color black version for print, documents, and light backgrounds.

Inverted on dark

Full-color mark on dark surface. Maintains contrast and legibility at any scale.

Small-scale favicon

Simplified mark optimized for 16×16 and 32×32 pixel rendering in browsers.

Maintain **clear space** equal to the logomark height on all sides.
Never reproduce below minimum size thresholds.

- 01 Clear space — Minimum space around logo equals the height of the logomark
- 02 Minimum print size — 24mm wide for all printed materials
- 03 Minimum digital size — 80px wide for all screen applications

Color system

Primary Accent
Orange #F26522
RGB 242, 101, 34

Deep Accent
Burnt Orange #D94F1A
RGB 217, 79, 26

Primary Background
Charcoal Black #0E0E10
RGB 14, 14, 16

Secondary Background
Graphite #1A1A1D
RGB 26, 26, 29

Primary Text
Off White #F5F5F7
RGB 245, 245, 247

Secondary Text
Cool Grey #8E8E93
RGB 142, 142, 147

Usage ratio: 70% dark neutral, 20% white, 10% orange accent. No blue tones. No purple gradients.

Ff Gg Hh Ii Jj Kk
Ll Mm Nn Oo

REGULAR

Body text, paragraphs, and general reading content across all brand materials.

MEDIUM

Headings, subheadings, buttons, and navigational elements.

BOLD

Titles, key emphasis, and high-impact display text.

Visual language

Visuals are engineered, not decorative

No rounded shapes. No playful illustrations.
No heavy gradients. Every element is intentional.

Sharp geometry

Hard-edged geometric shapes only. Every angle is deliberate and precise.

Modular panels

Structured UI blocks and modular panels that reinforce systematic thinking.

Strict grid alignment

Every element snaps to a rigid grid across all brand materials.

Negative space

Generous whitespace used as a deliberate design element, not leftover.

Brand voice

SpecFlow speaks the way it builds —
with **clarity, structure, and zero filler.**
Say what it does. Say how it works.
Stop.

- 01 Confident — State facts, not aspirations
- 02 Precise — Every word earns its place
- 03 Direct — Lead with the point, skip the preamble
- 04 Systematic — Structured messaging, structured product

Brand in use

Example applications

Consistent brand application across every touchpoint. All applications maintain the dark + orange identity system.
